

SignalServiceImpl::
ComputeFFT

```
graph LR; A[SignalServiceImpl::ComputeFFT] --> B[SignalServiceImpl::FFTEigen]
```

A diagram showing a call from a function to a class. On the left, a gray rectangular box contains the text "SignalServiceImpl::ComputeFFT". A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text "SignalServiceImpl::FFTEigen". Both boxes have a black border.

SignalServiceImpl::
FFTEigen
