

SignalServiceImpl::
ComputeIFFT

```
graph LR; A[SignalServiceImpl::ComputeIFFT] --> B[SignalServiceImpl::IFFTEigen]
```

A diagram showing a call from a function to a class. On the left, a gray rectangular box contains the text "SignalServiceImpl::ComputeIFFT". A blue arrow points from the right side of this box to the right side of another rectangular box on the right. This second box is white with a black border and contains the text "SignalServiceImpl::IFFTEigen".
